### Instructions to complete the layout:

1. Use a sanding block to sand all the edges of patterned papers, photo mats and fussy-cut images.
2. Use 2 plain sheets of cardstock as your background pages – the background papers can then be laid over the cardstock backgrounds and stuck down. Alternatively, you can join the top and bottom pieces with tape at the back – just make sure they measure 30,5cm once stuck together.
3. Adhere PASSION (blue stars) papers to tops of the cardstock backgrounds. Adhere floral pieces (DREAM & IMAGINE) below them – make sure the floral patterns are on the outer edges of the layout.
4. Add both striped strips and scalloped border strips to the joins between these papers. Make sure the 2 sides line up in the centre of the layout.
5. Adhere the 2 square photo mats to the top left of page 1, approx. 2cm from the left edge.
6. Cut the circular chipboard images carefully from their frame – we will be using this frame on page 2. Ink the frame with white chalk ink and allow to dry. Adhere to photo mat and place on page 2, approx. 9,5cm from the top of the page. Tuck 2 fussy-cut tabs underneath before sticking down.
7. Double mat the remaining photo mats and adhere to layout as per picture.
8. Raise the large fussy-cut circle image with foam tape – you would have cut this at 10cm from the left side – adhere to the centre of both pages, tucking fussy-cut floral and leaf images all around.
9. Preparing the chipboards: Select chipboard pieces from the packs in your bulk pack. Apply white chalk ink to all of the pieces. Use the other inks to add colour to the various words. Apply

- copper/rose gold stickles to the “moon” word and border and other circle images. Allow chipboards to dry completely before adhering to layout.
10. Adhere the “I love you to the moon and back” inked title to the left side of the large circle image.
  11. Adhere trimmed border strip with glittered chipboard border to the top of page 2.
  12. Punch a small hole in the fussy cut tag and insert an eyelet and ribbon. Adhere (with foam tape) and large gem cut-out to the bottom of page 2.
  13. Adhere fussy-cut gem border and quote strip to the centre bottom of both pages. Use dimensional glaze to adhere some beads, found in your embellishment pack.
  14. Create small clusters of fussy-cut images and chipboard elements to your layout. Refer to picture for placement.
  15. Cut off the loops of the mini star & moon charms – a wire cutter will work well for this – adhere these charms across the top of your layout to add interest to the star background papers.
  16. Embellish with remaining chipboards and fussy-cut element as desired.

Hope you have enjoyed completing this layout ☺
