Instructions to complete the layout:

1. Use a sanding block to sand all the edges of patterned papers, photo mats and fussy-cut images.
2. Adhere the 4 pieces of patterned paper (yellow zigzag, green floral, clay squares & dots) to the centre of the MAGICAL (floral) paper, leaving an even border on all the outer edges.
3. Adhere scalloped border strip horizontally to the centre of the layout.
4. Double mat the larger photo mats and adhere to the right of the page, approx. 3,5cm from the top & 3cm from the right side, tucking floral; elements & "together" tab underneath, as per picture. Adhere scalloped chipboard border to the top.
5. Adhere the 2 square photo mats (double matted) to the bottom, approx. 1,5cm from the right side & 5,5cm from the bottom of the layout.
6. To prepare the chipboard title block: Apply white ink to the entire chipboard – this will give you a good blending surface. Now use the other colour inks and apply to the chipboard in panels, using your finger or a blending tool to shade the colours together to create an ombre look. Allow to dry completely.
7. Adhere the title block to the white woodgrain piece, raise with foam tape, and adhere to the left of the page, tucking lots of floral cutouts underneath the right sides and top and bottom. Layer these for a dimensional effect.
8. Add camera elements, raised with foam tape.
9. Embellish your layout with rhinestones and pearls.
10. Hope you have enjoyed completing this layout 😊
